BANGOR DAILY WHIG AND COURIER

BY SMITH & SAYWARD. FRIDAY, MARCH 3, 1854. VOLUME XX....NUMBER 209.

Bangor Daily Whig and Courier.

IS PUBLISHED

Over the Kenduskeag Market, at Five Dollars a year payable half yearly in advance. All subscriptions for less than a year to be paid in advance, and all orders or discontinuance must be accompanied by the amount due.

The BANGOR COURIER is published at the office of the Daily Whig and Courier every Tuesday morning, at One Dollar Fifty Cents a year in advance, or Two Dollars if not paid in advance.

☞The publishers will not hold themselves responsible for a error that may occur, beyond the amount charged for the advertisement.

Mr. V. E. PALMER is agent for these papers. Advertisements left with him will be promptly attended to.

McFarland's BURGLAR and FIRE PROOF SAFES!

THE undersigned would respectfully call the attention of the public to the above unequalled safeguard of property—proof against the devouring element of fire as well as the most skillful burglar. To MERCHANTS, JEWELLERS, and BANK DIRECTORS we would only say examine them and the proofs, and you will be convinced of their superiority over all other manufacture.

Our business is done on a plain, straightforward way, without resorting to humbug or large talk. Below is one of the many testimonials we are daily receiving from all parts of the country, and which speaks for itself. Messrs Pond & Hitchcock's Oil Store was situated directly under the Pearl of Home and was totally consumed in that great fire of August 23d.

NEW YORK, Aug. 28, 1853.

Messrs Wm McFarland & Co

Gents—It affords us pleasure to inform you that the Fire and Burglar Proof Safe we purchased of you preserved our books and papers, at the disastrous fire of the Pearl-st House, last evening, in the most perfect manner. Although it was lowered throughout the fire with burning Rosin, and other Oils, and directly under a broken gas pipe, in the most intense heat, it remained true to its name and its contents when taken out were not even scorched, and hardly form the smell of fire. To anyone who is in want of a superior Safe, a perfect safeguard against fire, we cheerfully recommend your manufacture, having had a personal experience of the results. Yours truly,

B. F. POND & HITCHCOCK.

Our Depot, where an assortment of all kinds and sizes is constantly on hand, is at

33 Maiden Lane,

(NEW DOOR FROM NASSAU STREET.)

CITY OF BANGOR.

AN ORDINANCE for the organization of the Fire Department.

Sec. 1 Be it ordained by the Mayor, Aldermen and Common Council of the City of Bangor, in City Council assembled, That the Fire Department shall consist of a Chief Engineer, and not less than three Assistant Engineers, and of three companies, each of whom is to consist of forty men, and of such additional companies, as shall hereafter be established by the Mayor, and Aldermen.

Sec. 2. Be it further ordained, That the Mayor and Aldermen shall from time to time form such additional Engine Companies as the wants of the City may require, but no Company is to exceed forty men in number.

Sec. 3. Be it further ordained, That no person under the age of twenty-one years, shall be admitted into any company belonging to the Fire Department.

Sec. 4. Be it further ordained, That the Chief Engineer shall be elected annually by ballot in the month of March, by the Council in convention, and at such other times as vacancies may occur.

Sec. 5. Be it further ordained, That the Chief Engineer shall have the power to appoint as many Assistant Engineers, and designate their rank, subject to the approval of the Mayor and Aldermen, as there are Engine Companies.

Sec. 6. Be it further ordained, That the Engineers shall have, and exercise all the powers, and be subject to all the duties of Fire Wards.

Sec. 7 Be it further ordained, That the Chief Engineer shall appoint the Firemen and shall have the power to discharge the same; But if any Fireman is aggrieved at his decision, he may appeal to the Board of assistant Engineers who shall have power to reinstate him.

Sec 8. Be it further ordained, That each Engine Company shall choose a Foreman, an Assistant Foreman, and a Clerk, all of whom shall be confirmed by the Chief Engineer. Each Company shall also cause a roll of its members, to be made and kept, and call the roll after each fire, alarm, and at each meeting of said Company, and note and roll all who are absent.

Sec. 9. Be it further ordained, That each member of any company, who shall be absent from any Fire, False Alarm or Meeting of said Company, unless for a satisfactory reason, given to said Company, shall be fined as follows:—Absence from Fire, one dollar; absence from False Alarm when the roll is called, twenty-five cents, and absence from each meeting of said Company, twenty-five cents. The Clerk of each Company, shall report quarterly to the Chief Engineer, all the absences of said member belonging to his company and what amount is due from each member, or fines.

Sec. 10 Be it further ordained, That the Chief Engineer shall be paid, annually, the sum of three hundred dollars; each Assistant Engineer the sum of fifty dollars, and each Fireman the sum of twenty-five dollars, on the first Monday of January of each year. But any Fireman who shall serve for a less time than one year, shall be entitled to such compensation as the Chief Engineer shall determine. The amount due from each member for fines, shall be deducted from the amount due for his services. And the amount thus deducted shall be kept by the City Treasurer in a separate fund to be called "Fireman's Relief Fund," to be used for the benefit of those members who may be injured at fires, and when needed, for that purpose, may be drawn from the Treasury by the Mayor, and appropriated as the Chief Engineer shall direct.

Sec 11. Be it further ordained, That on the first Monday of May annually, at two of the clock in the afternoon, the Chief Engineer may order out all the Companies of the department with their respective Engines and other apparatus to exercise the members and no company shall be paid with more than forty members.

Sec 12. Be it further ordained, That it shall be the duty of the Engineers whenever any fire shall break out in the City to repair to the place or near the place where the fire may be, to name the Engines and other apparatus to be arranged and worked in such manner as most effectually to extinguish the fire; to require and compel all assistance of all persons in extinguishing the fire, removing furniture, goods, or merchandise, from any building on fire, or in danger thereof, and to appoint guards to secure the same, and in pulling down or demolishing any house or building, or suppressing, burning and blowing. And it shall be their duty to cause order to be preserved throughout the department in going to, working at and returning from fires, and shall have power to suspend the offenders attached to the department; any one, duly and whenever any fire shall occur in either of the adjoining towns, it shall be the duty of so much of said Engineers to repair to such towns as shall have been designated for that purpose by said Board of Engineers.

Sec. 13 Be it further ordained, That in case of the absence of the Chief Engineer at any fire, the Engineer next in rank who may be present, shall possess his powers and perform his duties.

Sec 14 Be it further ordained, That all persons who may be present at any fire, shall obey the direction of any Engineer, and render their services in extinguishing the fire and protecting property exposed thereto, in such manner as they may be required to do by any Engineer, and every person who shall refuse, or neglect so to do, or resist or impede any Engineer, shall forfeit and pay, any sum not less than ten dollars nor more than fifty dollars, to be recovered in an action of debt in the name of the City Treasurer to the use of said City. And it shall be the duty of the Engineers to report to the Mayor and Aldermen, all such cases of refusal.

Sec. 15. Be it further ordained, That the Chief Engineer shall have full and entire control and command over all engineers and other persons attached to the Fire Department, shall direct all proper measures for the extinguishment of fires, and for protection of property, preservation of order, and observance of the fire ordinances and regulations. It shall be his duty to examine the condition of the Engines, and other Fire apparatus, Engine Houses, and other fire implements in the Fire Department, and all the reservoirs, wells and to keep the reservoirs free from snow and ice during the winter; to superintend the building and working of all machines and buildings used in the Fire Department, and all the city reservoirs. It shall be his duty to see that the Engines and apparatus are always kept clean and in order for immediate use, that, on the return from fires, they are well washed, cleaned, and oiled, and securely housed. He shall keep fair and exact records of the respective Engine Companies, specifying the time of admission and discharge of each member, and report the same to the Mayor and Aldermen on the first Monday of January of each year, with the amount of fines due from each member. He shall report to the City Clerk once in each year all the accidents by fire which may have happened within the city, and the cause thereof, so far as it can be understood, and the number of buildings and the value of the property destroyed or injured, and the names of the owners, if known.

Sec. 16. Be it further ordained—That the City Council, by a concurrent vote, may remove any of said Engineers.

Sec. 17. Be it further ordained—That the Mayor and Aldermen may from time to time, form as many Hose, Hook and Ladder, Bucket and Fire Companies as they deem it expedient to construct of such number of members as they shall determine.

Sec. 18. Be it further ordained—that the Engineers and members of the several Companies shall wear such caps and badges as the Chief Engineer shall direct, and the Mayor and Aldermen furnish. They shall be furnished at the expense of the city, and remain the property of the city. No other person shall be permitted to wear similar caps and badges except under such restrictions and regulations as the Chief Engineer may direct.

Sec. 19. Be it further ordained, That it shall be the duty of the City Marshal and Constables of the city, on an alarm of fire, to repair forthwith to the place where the fire may be, with their staves of such other badge of office as the Mayor and Aldermen shall direct, and use their best exertions, under the direction of the commanding Engineer, to preserve the public peace, and to prevent theft and the destruction of property, and assist in the removal of all suspected persons, for which service the Constables shall receive such compensation as the Mayor and Aldermen may allow.

Sec. 20 Be it further ordained, That if any chimney, stove-pipe or flue, within the city shall take fire or be set on fire, the occupant of the house, by which such chimney, stove-pipe or flue appertains, or the person or persons setting the same agoing, shall forfeit and pay the sum of two dollars. Provided, however, it may be lawful for any person to set fire to a chimney, stove-pipe or flue, in the forenoon of any day, when the contiguous buildings are not with rain, or covered with snow. And it shall be the duty of the Engineers to report to the Mayor and Aldermen the names of all persons liable to the penalty provided by this section.

Sec. 21. Be it further ordained, That the power of making and establishing rules and regulations for the transportation and safe keeping of gunpowder, within the city of Bangor, and granting licenses for the keeping and sale thereof, in the city, pursuant to the provisions of law, shall be exercised and performed by the Chief and other Engineers, and the power and duty of seizing any gunpowder kept or being within said city, or the harbor thereof, contrary to the provisions of law, shall be possessed and performed by said Engineers, or any one of them. And in case the seizure shall be made by any Engineer, other than the Chief, he shall forthwith report the same to the Chief Engineer, who shall cause said gunpowder to be libelled and prosecuted in the manner prescribed by law. And all the other powers and duties conferred and granted by the laws of the State in relation to the safe keeping and transportation of gunpowder shall be exercised and performed by the said Chief and other Engineers.

Sec. 22 Be it further ordained, That whenever it shall be determined by two or more Engineers, or by the majority of any greater number of Engineers present, at any fire, to pull down or demolish any building which may be on fire, or which shall be necessary to remove to prevent the spread of the fire, the same may be done by their joint order.

Sec. 23. Be it further ordained—That if shall be the duty of the Chief and other Engineers to inquire and examine into all shops and other places, where shavings or other combustible materials may be collected and deposited, and at all times to be vigilant in causing the removal of the same, whenever in the opinion of any two of them, the same may endanger the city, and to direct the owner or occupant of such shop or other place, to remove the same, or cause the same to be removed, at his expense, under the direction of the Engineers.

Sec. 24. Be it further ordained, That when any chimney, stove, or stove-pipe within said city shall be defective or out of repair, or so constructed or placed that any building or other property shall be in danger of fire therefrom, it shall be the duty of the Chief Engineer, or any two Engineers of the Fire Department, to give notice, in writing, to the owner or possessor of said chimney, stove, or stove pipe, to remove or repair the same. And if such owner or possessor shall, for the space of forty-eight hours after such notice, unnecessarily neglect to remove or effectually repair such chimney, stove or stove-pipe, he shall forfeit a sum not less than two dollars nor more than twenty dollars; and he shall be liable to a similar forfeiture for every week he shall so unnecessarily neglect to remove or effectually repair the same, after the termination of the said forty-eight hours.

Sec. 25 Be it further ordained,—That if said owner or possessor shall unnecessarily neglect to remove or effectually repair such a chimney, stove, or stove-pipe, within forty-eight hours after notice as aforesaid, it shall be lawful for the Chief Engineer to remove or repair the said chimney, stove, or stove-pipe, the expenses of which may be recovered by an action of the case by the City Treasurer against the said owner or possessor.

Sec. 26. Be it further ordained,—That all moneys received for fines, forfeitures and penalties arising under this ordinance, and the laws of the State regulating the storage and transportation of gunpowder shall be paid to the City Treasurer, to be applied in such way as is or may be provided by law.

Sec. 27 Be it further ordained,—That whenever the members of the several companies shall assemble at the houses instituted to their care, either on duty or company business, order and regularity shall be preserved. And it shall be the duty of the officers and members to refrain from unnecessarily assembling around be men. And the utmost care and economy shall be observed in the use of fuel, lights and other property furnished by the city.

Sec. 28. Be it further ordained,—That any member of the City Council may enter within the lines, at any fire, wearing a suitable badge to be provided by the Mayor and Aldermen.

Sec. 29. Be it further ordained, That no Fire Engine, or apparatus belonging to the city, shall be used to any trial or contest for superiority with any other Engine, or be taken out of the city, except to render assistance at fires in neighboring towns, or less by a usual order of the City Council.

Sec. 30. Be it further ordained, That "an ordinance establishing a Fire Department for preventing and extinguishing Fires," passed Oct. 16 1838, and "An ordinance additional" to the same passed Feb. 3, 1851, be and the same and are hereby repealed.

[Passed Feb. 20, 1854.

SEYMOUR'S GALVANIC ABDOMINAL SUPPORTER.

THIS appliance possesses all the mechanical advantages of the Abdominal Supporters now in use, and also some valuable improvements besides the galvanic attachment. It has been tested, approved of, and universally adopted in the practice of all the leading Physicians in New York, Boston, and all other places where introduced, to the treatment of all Nervous diseases which establish themselves under so many different heads, and particularly in the cure of Uterine difficulties. The beneficial results which have uniformly attended the use of this instrument are a sufficient guaranty of its utility and general applicatns. The advantages of this over other Supporters are, it cures by its Galvanic action, presents a smooth surface the does not retain heat or impurities which pass from the system, and can be kept pure and healthful.

The attention of the medical profession is respectfully solicited to an examination and test of the instrument. The above Supporters are for sale by GEO. W FREESON, Druggist, No 4 Smith's Block, sole agent for Bangor and vicinity

PUT DOWN.

Opinions of the Religious press

HENRY WARD BEECHER, in the New York Independent, say:—"Let I speak—May his numbers be as great as the leaves in summer! May thousands in down under its shadow with delight, and rise up refreshed and made kinder and better men. Any man Solon Robinson live to write a hundred books more, each one better than the other!"

The N Y Evangelist a leading Presbyterian paper, says of them are re—"They evince a firmness still worthy of Dickens and powerfully appeal in behalf of the poor, vicious and down-trodden, on grounds which sound Christian morality and feel ye cannot but approve of. Any thing more touching than The Little Hot Corn Girl, or a deed than most of these transcripts from the terrible real tree of life, we have seldom encountered."

From the Methodist Protestant, Baltimore, Md "No man can read it who has a spark of philanthropy in his passion without feeling a strong desire to do something for the poor and wretched, to look with more compassionate glances upon the outcasts from society, and especially to seek to remove from the atmosphere of this those helpless and innocent children who are born in sin and nourished in iniquity."

From the Religious Recorder, Syracuse, N Y—"If of the volume be read."

From the Religious Herald, Hartford Conn—"A great and good work will the circulation of this book effect"

House-keepers, look at this!

Admirable Invention!

PATENT SELF HEATING

SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century relieving and facilitating the labor of men by machinery and other modern implements, but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Irons*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of ironing, besides doing a great saving of time and expense. This from economy, convenience, saving of labor and despatch—one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stoves will answer the same purpose. It may be used in any room or in the open air. Hot and Tailors' Irons are constructed upon the same principle, and possess equal superiority

The Best Pills in the World.

HARDY'S FAMILY VEGETABLE CATHARTIC PILLS are the best that can be found in any country for Jaundice, and all bilious troubles, Dyspepsia, Colds, Rheumatism, and every complaint in which the stomach or bowels need evacuation or regulating. Thousands have boasted their unequalled skill and talent for every thing that the human heart can devise or hands execute; why, then, form with admiring and confiding eyes towards every new medicine with a foreign name? Yankees can, and do, beat all creation in every thing they attempt. Then discard your Mustang, Kangaroo, Ironstemmin, Hyson, and all other stock heathenish medicines, and call at Hardy's, No 3 Harlow's Block, where you will find, not only the best Pills, but the best Medicines in existence "for all the ills that flesh is heir to," (except lean pocketa) and the best Horse and Ox Medicines besides. Remember,

Bangor Daily Whig and Courier.

The Rooster-Pecked Wife.

BY ELIZA L. SPROAT.

SCENE FIRST.

Mrs. Biddy Chanticleer scratches for her breakfast. O Chanticleer Esq., from the top rail of the barn fence, becomes cognizant of the fact, and struts with dignity towards his little spouse.

Biddy. "Good morning, my dear."

O. C. Esq. "Morning, madam; quite enjoying yourself, madam, of course, you are not aware of the fact that I have been up far more than an hour, and have not yet eaten a mouthful? Is this what I married you for, madam? (Gives her a pointed lecture on the subject.) Where are your domestic qualities, madam? (Imprints a mark of affection on the top of her head.) Where was your smile of welcome when you saw me getting off the perch? I watched you, madam! Where was your tender female solicitude when you beheld me looking weakly for want of a little nourishment? Where, I repeat, is my breakfast? Cock-a-doodle doo!"

Biddy. (meekly.) "I'll be warm, dear."

O. C. Esq. (solemnly.) "I will."

SCENE SECOND.

Mrs. Biddy Chanticleer lays her first egg, and has invited two or three female friends to help cackle. (O. C. Esq. being absent.)

Mrs Biddy. "Cut, cut, cut, cut, cut-a-a-a-cut, cut, but a-a-a-a cut!"

Mrs Partlet. "Cut, cut, cut-a-a-cut!"

Mrs. Pheasant. "Cluck, cluck, cut, cut, cut, cut, cut-a-a-cut!" (is interrupted by the sudden appearance of O. C. Esq., who has returned from a stag party.)

O. C. "Cock-a-doodle doo! Now, more pa leave be vouchsafed me to ask of you, madam, what does all this mean? Here am I returning, care worn and exhausted, from the excitement and temptations of a deluded world, expecting to find repose and peace in the quiet of the domestic nest, instead of which, I discover you in the midst of riot and dissipation. Madam, it will not my penetration be denying it, I affirm that you are having a party!"

Mrs Biddy, (apprehensively.) "Not at all, my dear; at least, that is my friends were just going by, and stopped in quite accidentally, and so—I told you so, my dear, I've laid an egg! cut, cut, cut, cut, cut-a-a-a—that is, at least—yes, sir we've laid an egg!"

"Three female friends simultaneously. "Cut, cut, cut, cut-a-a-a-cut!"

O. C. Esq. (majestically.) "Peace, beneath, Madam, what does all this cackling folly mean?"

(Exeunt hens, in indignation.)

"Mrs. B. C., it has become necessary, at this stage of our matrimonial career, that I should state, in mild but unmistakable terms, my opinions regarding the appropriate sphere and duties of womhood.

"First, self devotion. It has been the decision of all rooster-kind, for ages, and therefore cannot be denied, that the crowning virtue of the hen character is disinterestedness. A true hen should be patient, self-forgetful, obedient, tenderly solicitous for her husband's little wants, delighting wholly and solely in the graceful and pleasant duties that cluster round the domestic nest. On the contrary, I find you thinking only how to gratify your own selfish tastes and desires, instead of displaying (as might naturally be expected) some little sense of loneliness and melancholy at your husband's absence. I return from a visit of nearly twelve hours and find you literally rejoicing! Madam, I ask of you, is this true henhood?

BANGOR DAILY WHIG AND COURIER.

cause a rooster's tail be that.) Do you recognize that, madam? Lo you asin wledge an recognize me with the chicken-hearted cuffed who dropped it? Are ou not aw re that I found it within three feet of tai domestic nest?

Mrs. Bidly, (languidly) "Did yo ? I didn't notice it."

O C., Esq. "Peace, m, and listen while I calm that sensitive tissue I swive a impress n on your m nd the ex mality of your conduct I am it not indeed so. I ask you? I y, madam, has it not been the opinion of a rooster—and for ages, and is it not therefor undeniable that self disinterestedness, the one thing needful to the female character is excessive modesty? A true hen is so modestly and securely virtuous, that the slightest attempt at intimacy from the opposite sex, though dignified being in the specious mask of friendship, will ever in her breast the extremest aversion and horror. On the contrary, what do I find to be the case in regard to yourself? Only yesterday, so returning unexpectedly from a little party, I beheld you so animated conversation with my brother! Heavens! madam, I to be larger the victim of such duplicity! No sooner would I sacrifice at once the domestic nest, and fling thy life ess body——oh! oh! murder! violence! revenge! Frailty, thy name is hen!"

Mrs. Biddy gets fidgety, on her nest. "Oh, dear me, Fanny! I am so tired!"

Silence for half an hour.

Mrs B. (in gentle deprecation) "My dear do you think you would mind looking to the nest a minute, while I run and pick a little bit of something? I haven't taken a mouthful to day."

Oh C., Esq. (starting up in doubt.) "Madam, have heard aright? Do I understand that you have distinctly offered to shift upon your husband the duties of the domestic nest? Are you in your to step from your spinning, madam? Have I not again and again impressed upon your mind, that female delicacy of sense is at the bottom of these impious doctrines? And what, on the contrary, according to the decision of a rooster-kind dictated by the reason and dignification of hen-hood? Disinterestedness, a true hen glories in little crosses and trials for without opposition she perceives that there can be no virtue; without trials, no patience; without affliction, no resignation; which is always so lovely in the female character. A true hen, situated as you are, would not only forgive that Providence had seen fit to perfect her with trials but with bad beautiful self abnegation which can never be too ceremoniously inculcated out by rooster-kind, would set herself to plan big new sacrifices. I say as true hen, in her situation, instead of sneaking from her station, would contrive some plan, (if only by reaching on her head and pulling the earth around her) for supplying her husband a little earlier."

Mrs. B. (meekly.) "Have I wrong, dear?"

O. C., Esq. (solemnly "I will.—National Era.

Bangor Daily Whig and Courier.

John S. Sayward, Editor.

FRIDAY MARCH 3, 1854.

SENATOR CRITTENDEN AND THE NEBRASKA BILL.—It was recently stated, from Washington, that Senator Crittenden had taken ground against the Nebraska bill. A dispatch from Louisville says there is no truth in the report, nor is there any ground in the report that he is about to declare his sentiments upon this subject. We extract from Mr Crittenden's recent dinner speech at Frankfort, Ky., those portions referring to politics

"Referring to Kentucky, he (Mr C.) said that he gloried in her most for her devotion to the Union, and felt proud to believe that when he stood up to represent her in the Senate of the United States he should represent a State without an Abolitionist, a Secessionist, or a Nullifier, in her borders.

He was, he said, a Whig. He had been a Whig all his life, and was not likely to change. He had learned Whig principles in the school of Clay and Webster, the great teachers of his faith, and he repeated he was no Whig of reaction, no matter he had ever held. Those decisions which made some of them proper had passed away but they were right in their circumstances then, and he repeated his faith in none of them. He saw in the course pursued by the Senate during the past. He should go back to the Senate with the sobering influence of time upon the experience which the conflict of earlier years may have produced, solicitous chiefly for the welfare of his country, and for the success of his party only because he believed it was the cause of his country, and lamented always that true Whig spirit of which it was one of the chief characteristics to sink the character of the patriot in that of the partizan, whenever the honor or prosperity or harmony of the country was at stake.

It had been said that the Whig party was dead. When did it die? At the last Presidential election? If so, what party died at his silent on four years before when the Whigs triumphed? For General Scott, misunderstood and subjected to unjust suspicions as he was, more than twelve hundred thousand Whig votes were cast. It was idle to talk of the death of such a party. The Whig party was necessary to the carrying on of the government. Its principles were of the essence of republicanism and constitution. It could not die and leave the company sorrowing.

It was true that the partition wall between the two parties was growing thinner every day—especially between the Whigs and the National Democrats; but the reason of it was that National Democrats were becoming more like Whigs every day they lived."

We learn that it is the desire of several of our citizens, that Mr. G. E. Vearing, Jr., whose lectures on agriculture and moulting chemistry and the pleasures and profits of farming gave so much satisfaction to the Board of Agriculture, at Augusta, should be engaged to give the course of three lectures in this city.—These lectures would afford both pleasure and profit—would interest and enlighten our people and at the same time will furnish a large amount of valuable information in all departments of gardening, farming, fruit raising, raising of flowers, management and construction of green houses, hot beds; the appropriate food for plants, and the manner of preparing it, &c.

He is so thorough a master of his subject that at the close of each lecture he will answer any questions propounded to him upon the subjects treated of, and thus hold a general conversation on the great art of the cultivation of the soil

A requisition will probably be made for a course of lectures to be delivered in this city in the month of April.

Sudden Death.

We learn from a correspondent at Hallowell, that on the 14th inst., Master Cutler Gooch son of widow Martha Gooch of Smyrna, while walking in the street in Hallowell with a Mr Daniel Marten, dropped down dead.

On the 28th of January in Houlton, Mr Jonathan Hamping, son of John Hamping, upset himself and died the same day.

An Enormous Moose.

Mr. Benjamin Washburn of Wisconsin, formerly of this city and now lumbering on Saboomook river, on Saturday last came upon a moose track, which he followed till night and then returned to camp. On Sunday he started again in pursuit, and came up with him at about two o'clock. The moose had made for himself two tracks about half a mile long and a quarter of a mile apart, and cross tracks between them. In these tracks he was chased for about two hours, but without gaining any advantage over him. Mr Washburn then drove two sharp stakes into the ground and covered them with brush. On the moose meeting with this obstruction he ended over and struck for the upland. He was chased for eighty rods, and on Mr. Washburn approaching him the moose turned upon him and drove him to a tree. A man with a gun then came up and shot three balls through his head and one through his shoulder, which he gave up.

This moose, after being dressed, weighed 700 pounds, an uncommonly large size, and probably as heavy as ever was taken in this State.—This moose has been much hunted during the winter, but has evaded all pursuers; but on this hunt he had a heavy snow and a very determined man to contend with

We tender our thanks to the intrepid hunter, Mr. Washburn, for a couple of capital roasts from the carcass of this monster, fat, clean and fat.

THE CABIN OF THE STEAM YACHT NORTH STAR, or Narrative of the Excursion of Mr Vanderbilt's Party to England, Russia, Denmark, France, Spain, Italy, Malta, Turkey, Madeira, &c. By the Rev John Overton Choules, D. D., author of the "History of Missions," "Women Americans abroad," &c. Boston: Gould & Lincoln 1854.

This is a handsome volume of 253 pages in the neat and substantial style which characterizes the works from the press of Messrs Gould & Lincoln. These paid here are of opinion that what is worth doing at all is worth doing well. The work before us is therefore well done.

The author had as it must well understand, the management of making a most interesting and valuable book. He has not disappointed our high expectations. The voyage and all its attendant circumstances are given, not in a dry and tedious narrative and in detail form a description of words, but clearly and succinctly. There was still a wealth of material that the author felt at liberty to throw out all small coin and to deal only in golden ingots. We thank him for many a time, perhaps, by giving us less as much, easy so much, with the smallest expenditure of time. Others will thank him, and the work will be widely read.

This valuable book may be obtained at the bookstore of E F Duren, near the Post-office

The dismasted brig reported yesterday, towed in Newburyport, was the Oregan, (not Oregon) Captain Seavey, from Frankfort, Feb 14 Penn. and 25th, for Martinique, with lumber. She was driven into the bay in the gale on Sunday, anchored near Salisbury beach and cut away both masts to prevent her going ashore. The pilot attempted to get out to her in the afternoon, but the high sea prevented, and they remained on the island during the night, in order to render assistance, should the vessel drive on shore. Next morning, schooner Town went to her assistance, and towed her to Newburyport. There was an insurance on the cargo at Belfast the vessel was not insured. The Oregan was built at Scituate, is twenty years old and was for many years employed in the African trade, at first owned in Boston, subsequently in Salem, and now at Frankfort by Messrs. Treat.

The Machias Union states that a fire occurred early on the morning of the 21st ult, in a tenement on No. 4, Range 1, North of Long Lake, belonging to Perkins, which entirely consumed the dwelling house of Mr Alden P Walker, together with all the furniture, bedding &c., the house contained, the inmates have gone to take with their lives.

Mr Walker been absent in the woods his wife suffered much from the intense cold, before taken to a neighbor's residence, (nearly a mile distant) with her infant child but a few days old, assisted only by a female friend.

Mr Walker was clerk of the plantation, and all its books and records were consumed in the fire. The fire caught where the stove funnel passed through the roof of the house.

We have received from Mr. Richard Stuart of Almyra, specimens of apples raised by him under the name of "Co-core" apple—The name is well applied, for it has the merest show of a core and is destitute of seeds. The flavor is fine, the flesh crisp, and is good eatable fruit. The tree is hardy and a good bearer.—Mr. S. would do well in propagate this fruit.

Schooner D. S. Oakes, of this city, Capt Lane, from Santa Cruz for New York, was spoken February 23, in latitude 27° 14', longitude 74° 15', by schooner Washington, at New York the 27th. Her masts, sails and rigging were all gone, but the hull was right.—The ship left by her all day, and took off a passenger.

Every school boy knows that a stick would not fly unless had a string fastened to it. It is just so in life. The man whose life shows by half a dozen blooming young children and their mother, will make a stronger and better fight than the old bachelor, who having nothing to lose or steady, is always found running in the mud. If you want to succeed in the world, tie yourself to somebody.

Rev S H Merrill of Oldtown, will deliver a lecture before the Mechanics' Association on the evening. Members, with their families and friends, are invited to be present.

Hon. Isaac McLellan, late Commissioner to the Sandwich Islands, with a passport on the Young America for the United States, which left Honolulu just previous to the date of our last advices

The steamer T. F. Secor, lately purchased of a firm between this city and Machias the coming season, is in Portland undergoing some repairs.

The state of Wisconsin has adopted a resolution proposing the prohibitory object.

Mr. Springer's advertisement of Astronomical lectures.

THE PRINTING OFFICE.—Mr. Winthrop, in his recent lecture before the Charitable Mechanic Association made this remark in regard to the printing office as a good school

"There is an atmosphere in a printer's office, which, somehow or other, puts notions into boys' heads, too,—an atmosphere which is very apt to make quick blood run quicker, and impulsive hearts beat higher and active brains work harder, until those who were only intended to set up types for other people's thoughts, are suddenly found inserting on their own other people to set up types for their own thoughts.

The Salem Gazette remarks of this, that had Mr. Winthrop been a practical printer himself, he could not more happily have expressed the spirit and feeling natural to our craftsmen, which the nature and associations of their calling engender.

ENGLISH MUTTON.—Those who wonder why English mutton is held in such high estimation will wonder no longer after reading the following from a London correspondent of the National Intelligencer

We have heard much of the great weight to which sheep have sometimes fed in England, and our belief was really staggered by some of the reports, but we really saw on Monday last, in one country butcher's shop, four sheep, which had been raised in Gloucestershire, whose weigh, when slaughtered and dressed for sale, as mutton, was 239, 244, 216 and 197 pounds, respectively A shoulder cut from the largest, weighed 42½ pounds. Two Lincolnshire sheep, in the same shop, weighed 2.6 and 281 pounds respectively

Mr. Williamson's Poem.

To the Editor of the Whig and Courier

A Poem, was read before our Lyceum last week, by William C. Williamson, Esq., of Belfast, which gave much great pleasure and satisfaction to our citizens, the writer hereby excuse ourselves from making public mention of its merit. We need not particularize, as extracts have already been published by the press, but we do urge, that while such home talent exists among us, we may satisfy our own public full, without having recourse to entirely to occasions from abroad.

Castine, February 27, 1854.

Proceedings of the Military Convention.

This Convention met at the State House, and was called to order by Gen. Albert Tracy, a committee nominated for that purpose reported the following officers for the Convention

President—Col. Jonathan L Hodgdon of Bangor

Vice Presidents—Gen. Wendell P. Smith of Portland Lieut. A. J Palmer of Bangor, Capt Ira P. Foss of Saco; Capt. Charles R. Whidden of Calais, Gen. Joseph C. Kinsman of Machias, Col E. G Sewall of Solon, Col Aaron Hobart of Edmunds

Secretaries—Lieut F D Sewall of Bath and Lieut. J. D Bartlett of Bangor

Col Hodgdon on taking the chair, addressed the Convention.

On motion of E W Flagg of Bangor, Capt E. K Harding of Bath, Capt. Samuel J. Anderson of Portland, E W Flagg of Bangor, Lieut A Walters of Portland, Lieut S. R. Carter of Paris, were appointed a committee on Resolutions.

Capt. E. K Harding reported the following resolutions, which after having been discussed by Lieut J. D. Bartlett, Capt. S. J Anderson, John A Peters, Lieut F D Sewall, Gen. Tracy and Major Barker, were adopted.

Whereas, By the constitution of the United States, a well regulated militia, is held indispensable to the security of a free government.

And Whereas, By the laws of the United States, each State is required to maintain, within its limits, a complete and thorough organization of militia, to be trained and disciplined according to the system provided by the regular army,

And Whereas By the laws of the State, enacted in 1834 the militia were disorganized, and by the law of April 28, 1842, all inspection of arms furnished by the United States, for the benefit of the militia,

Resolved, That in the opinion of this convention the State of Maine occupies a position both to the requirements of the general government, and its own interests and

Resolved, In view of the favorable present Chief Executive of this State of the indications of popular feeling, as evinced in the press, this Convention is disposed to meet and confer upon this subject

Resolved that this Convention earnestly asks the Legislature to the extraordinary and unconstitutional character of the militia laws of this State, and the action of their honorable body, in the establishment of a competent volunteer militia, to be supplied with arms and equipments by the State.

On motion of Gen. Tracy, Capt S J Anderson and Lieut F D Sewall, were appointed a committee to present the resolutions of this Convention to the Legislature, and to draft and recommend a system of the militia, the adoption of which, by the Legislature, shall be solicited. The Convention then dissolved.—Kennebec Journal

We notice in the list of premiums awarded by the Cheyenne Falls Judges, that the widely celebrated Chocolates, Cocoa and Broma prepared cake of Messrs. W Baker & Co., of Dorchester, Mass., to whom premiums were not long since awarded by Institutes and fairs at Boston New York Philadelphia and Washington, have now received the first premium for superior excellence and a bronze medal from the New York Crystal Palace Exhibition of the Industry of all Nations. Their above preparations with the rare for sale by the principal grocers in the United States, have obtained a wide celebrity in all parts of the country—allay rather than feed the nervous excitement attendant upon the use of tea or coffee, a consequence of which they are recommended by the most eminent physicians, and thousands of persons can be found in every State who have experienced great benefit from their use.

A SERVANT GIRL THE MOTHER OF QUEENS. During the reigns of Charles I, of England, a country girl came to London and hired herself to carry beer from a warehouse The brewer, taking her looks, took her into his family as a servant, and after a short time married her—When he died he left her the bulk of his property. She was recommended to Mr. Hyde, as a skilful lawyer, to arrange her husband's estate. As her fortune was large, Hyde, who was afterwards Earl of Clarendon, married her Their daughter was the wife of James II, and mother of Mary and Anne, Queens of England.

The demand for ships has made all the shipyards of New England exceedingly active this year and the sound of the axe and the noise of the saw are heard from New York to Eastport. The severity of the weather has on a great measure, prevented the progress of these works since the year came in, but the tons of shipping to be constructed in 1854, will far exceed any former year, and will call into requisition every carpenter in the country.—Newburyport Herald.

A lithographic representation of a camp meeting held last fall, near Red Lion, New Castle county, Delaware, has been published There were 446 tents, over 70 preachers, and many thousands of persons in attendance on that occasion. Indeed, it claims the honor, as to the number of tents, over all camp meetings, filled the days of Israel's encamping in the wilderness.

Maine Legislature.

IN THE SENATE

AUGUSTA, Feb 28

On motion of Mr Blake of Penobscot, the Senate reconsidered the vote of yesterday whereby the bill concerning married woman's rights was passed to be engrossed, and on his motion laid on the table

The resolves relating to the *Nebraska bill*, (now pending before Congress,) from the House, were read, and on motion of Mr Vinton the yeas and nays were called, and resulted as follows —

Messrs Nath'l Blake, Newell Blake, Elisha Clarke, Minot Cushing, John L. Cutler, Ebenezer Davis, Geo W Deasey, Sam'l Gould, W P Harriman, Thos M Hayes, Hiram Hubbard, Jos Lowell, Wm Lowell, James T McCobb, Nathan S Moore, Franklin Muzzy, Job Prince, Stephen Stark, Henry P Torsey, Isaac N Tucker, Warren H Vinton, John West, Tendal Whidden, Christopher Young, Jr.

Mr Jacob Hazen—1. Sir Senators absent.

Passed to be enacted—Bill to change the time of assessing taxes in certain cities—resolve in relation to certain debts due the State—in favor of John Francis.

Petitions presented and referred—of W Dillingham et als of Oldtown, in relation to existing Treaties with the Penobscot Indians

The Senate at 12 o clock went into convention with the House for choice of a State Treasurer, on completing which the Senate adjourned

IN THE HOUSE.

Presented and referred—Petition of stockholders of Stillwater Bridge for extension of charter

A bill to incorporate the Penobscot Telegraph Company, was read twice, and on motion of Mr Hill of Bangor, laid upon the table, and the usual number of copies ordered to be printed

On motion of Mr Johnson of Belfast, the bill whereby the County estimate bill was finally passed, was reconsidered, and the bill laid upon the table.

IN CONVENTION

In the second ballot Samuel Cony was duly elected Treasurer for the current political year Adjourned

XXXIIId CONGRESS.

WASHINGTON, February 28

SENATE

Many petitions were presented by Messrs Tuney, Wade, Everett Sumner Chase, Fish Seward, and other against the repeal of the Missouri Compromise

The bill granting land to all the States for the benefit of the indigent insane, was taken up, and amended so as to give each State 100,000 acres leaving the other 6 900 000 to be apportioned among them according to population and the number of square miles.—The bill was ordered to be engrossed

The Nebraska bill was then taken up when Mr Bradbury spoke in its favor

HOUSE

The committee on elections reported against the petitions from New York contesting the right of Hon Mike Walsh to a seat

A sharp debate of some length occurred on referring to the committee of the whole the bill granting to Wisconsin land for railroad purposes Before concluding, the morning hour expired, when the House went into committee of the Homestead Bill

Mr Dean proposed an amendment, to the effect that the lands shall be chosen in the Territories and not in the States, which was rejected

LIFE AND TIMES OF HENRY CLAY.—Mr C. Colton, who is now engaged in an enlargement and completion of his Life and Times of Henry Clay, finds on examination of Mr Clay's papers, at Ashland, that his private correspondence is of material importance for a complete exhibition of his character and history of the times with which he was connected. He therefore earnestly requests all correspondents of Mr. Clay, who may be in possession of such letters from him on any subject not strictly private after death to forward such letters to Messrs A S Barnes & Co, 51 John street, New York The letters will be returned, or remain subject to the order of their owners, according to their instructions

More than two hundred different kinds of shoes are manufactured in the town of Haverhill, Mass, from the brogan to the finest kind of ladies' shoes The sales amount some days to from seventy to eighty thousand dollars it is estimated that 5,000 000 pairs are annually manufactured in that single town which stands second or third in the amount of its shoe trade.

Courting in the country is altogether a different institution than the city article In the former place you get rosy lips, sweet cider, johnny cake, and girls made by nature, and in the latter a collection of starch, hoops, formal manners, fine silk, great jewelry and girls got up *secundum artem* Always take the rural district when you want to get a good style of article

WASHINGTON, Feb. 28.

The Democratic caucus nominated A O P Nicholson for public printer of the House 74 members were present, and Mr Nicholson received 40 votes. There was no organized opposition to him W W Curran intendingburning as an independent candidate

SENATOR HAMLIN.—We have seen a letter from Senator Hamlin of Maine, to a gentleman of this city, in which he gives his views of the Nebraska bill, as follows "I regard the whole Nebraska scheme, in its present form, as an outrage, and, if followed up, it will produce infinite mischief.'—[Commonwealth

A company, having in their employ some three hundred operatives, are manufacturing India rubber combs at Williamsburg, L I By a process called *deodorizing*, the firmness of metal or shell is imparted to the rubber, which a great part of its natural toughness is retained.

The British ship Three Bells, Capt Creighton sailed from New York for Glasgow, on Monday, February 20 While passing Governor's island, she was saluted by the United States' batteries on that Island, and on Bedloe's Island

Complaisance pleases all, prejudices none, adorns wit, renders humor agreeable, augments fine clothes, redoubles love, and complying with justice and generosity, becomes the secret charm of the society of all mankind.

PHILADELPHIA, Feb. 27

The will of the late Elliot Cresson distributes 127,000 dollars for Philadelphia objects, including 50,000 for the American Sunday School Union

Complaisance pleases all, prejudices none, adorns wit, renders humor agreeable, augments fine clothes, redoubles love, and complying with justice and generosity, becomes the secret charm of the society of all mankind.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

From Washington.

WASHINGTON, March 2.

In the Senate Mr Stuart, on Committee of Public Lands asked to be discharged from the consideration of the memorial praying for a grant for a ship canal around Niagara Falls

Numerous remonstrances were presented against the Nebraska bill

The indigent insane bill was then taken up and debated

In the House, a bill was introduced granting the right of way for three railroads across public lands from commercial points in California and Oregon, was referred to the Committee on Railroads

Mr —— asked leave to introduce a resolution requesting the President to open negotiations with Peru either for the purchase of the Chincha islands, or for the abolition of the Peruvian monopoly Not granted.

The House then went into committee on the Homestead bill.

FATAL ACCIDENT

HARTFORD, Conn March 2

A steamboiler in the cartridge factory of Hoskins Pelton & Gray exploded this afternoon, nearly destroying the building. Up to four o'clock twenty mangled bodies were taken from the ruins. Ten are dead, and others not expected to survive Have no further particulars

Dr Morse's Invigorating Cordial.

The only cure and safe Nervous yet discovered for General Debility, Physical Prostration, Insanity, and all those painful diseases of Nervous Affections, it will also remove Depression, Excitement, Dislike of Society, Inexperience for Study or Business, Loss of Memory, Mental Imbecility &c, &c.—See Virginia advt

To the Ladies.—The Golden Globe, for the hair is a preparation which has no equal It is highly perfumed, and imparts the fragrance of a most delightful flower. It makes the hair soft, glossy, and wavy, and causes it to grow luxuriantly, ensuring it from falling off or turning grey It renders dandruff impossible, cures baldness, and keeps the skin clean, smooth and healthy It has long been in demand and is rapidly gaining a popularity Ladies who learn its value a short respect will never be without it. Price 25 cts. W. A. HUBBARD, Proprietor, 344 Broadway, New York E. PERKINS, Agent Bangor.

A Wonderful Discovery has recently been made by Dr Jacob of this city in the treatment of Consumption, Asthma, and all diseases of the lungs We refer to the Cattle Kill-weeds, or Healing Balsam Vapor and Cherry Pectoral. With this new method Dr. C. has restored to activity and perfect health to an extent of which the time immemorial gives no parallel. Speaking of the medicinal properties of the vapor it is evident that inhaling it constantly heals up every the medicinal properties must come in direct contact with the diseased parts, and this escape the many and vile odors produced upon the stomach and pass into the stomach, and subjected to the process of digestion. If the disease is of this nature it diffuses throughout the entire system. From the New York Christian Advocate and Journal

The Glory of Man and the Graceful Ornament of Woman.

Why is there more glory in a more beautiful than in a raven head of hair on either man or woman? And when those rich locks seem a woman's pride to decay by disease, how mortifying that we have some preventive or cure! There are a thousand different preparations brought into use purporting to prevent hair from falling off, or causing a new growth when the hair has become old; but all of little or no use and very often injuring the diseased roots more than doing them good. But there is an article which has recently been discovered in New York which WILL prevent the hair from falling out, and is guaranteed to produce a good growth of Hair on heads that have become bald. We have one case in Boston of an elderly lady who has tried it and who is willing to certify to the truth of the above. And to induce people to try it, the Wholesale Agent in Bangor offers for a reasonable sum to guarantee one dozen bottles on any one who will try it thoroughly in three months time, or no charge for the article. Now, come one, come all it costs you nothing to try. The preparation is called HYGEIAN HAIR INVIGORATOR, Based the following certificate from a gentleman well known in this city as well as New York

NEW YORK, Dec 2, 1853.

Mr Hurd—Dear Sir—I have been bald for the past five years, and as my father's and grandfather's family were bald at an early age it was considered hereditary, and I thought it impossible to produce a new hair on my head, and indeed every thing tried, and was induced to use your Hair Restorer. I commenced using it about six weeks ago, and where my head was as bald as my hand it is now covered with a vigorous growth of new hair and there is no doubt it will produce hair on any bald head

Yours truly, C. FARRAND

Have You?

Have you—or have you had tapeworm?
Have you got any yellow or sallow spots?
Have you stinging on your nose?
Have you coral upon your tongue?
Have you any burning before?
Have you lumps that go off by scores?
Have you thin water from or sands?
Have you any feeling of cold?
Have you such a thing as gout?
Have you causes to mind about?
Have you on the railroad spent?
Have you "unsaddled" and broke your head?
Have you a rich defying skin?
Have you sons that also a skin?
Have you aches in tooth or ear?
Have you pains that feel so queer?
Have you broken of any kind?
Have they gulls or broken wind?
Have they ringing—hissing—do care?
Have they big heads to adorn?
Have they scratches of a school head?
Have they charms that elapsed revival?
Have they spending—worse than all?
Have they? Have you? Are you? Do you care—
Have you tried the Doctor's Stuff—
Have you—till you've got enough?
Take advice now kindly meant—
Use the Mustang Liniment

ASTRONOMY!

MR. SPRINGER,

(Formerly editor of the Maine Farmers Almanac,) respectfully announces to the Ladies and Gentlemen of Bangor that he will give a Course of

THREE LECTURES

on the interesting science of Astronomy, in the

CITY HALL,

Illustrated by a *MAGIC LANTERN* of great power, with numerous large and brilliant Diagrams recently received from London The apparatus being designed to explain in an easy and familiar manner every part of the science is the most extensive and perfect ever exhibited in the State

First Lecture,

SATURDAY evening, 4th inst Subject—THE SOLAR SYSTEM—illustrated by the Illuminated *ORRERY*, Views of the Planets, &c

This Lecture will close with numerous illustrations of *Natural History* among which are Mount Vesuvius in eruption, with the boats in motion, Views on the Rhine, Lake Solfaro by moonlight, The Grand Canal of Venice, Bridge of Sighs, &c

Second Lecture,

TUESDAY evening, 7th inst Subject—THE FIGURES OF THE EARTH—THE SEA AND SONS OF THE MOON

Among the numerous illustrations of this Lecture will be exhibited a beautiful Daguerreotype of the Moon's Southern Crisp, as taken by Messrs. Bond and Whipple, with the great Telescope in Cambridge, (Mass.,) magnified so as to be distinctly seen in every part of the Hall

This Lecture closes with many beautiful Views, among which are the Robbers Cave, in Cuba—Fountain Abbey Mount Sinai, Petra of the Desert Views of Rome, The Sepulchre Church with a procession of monks, animals, costumes, &c

Third Lecture,

THURSDAY evening, 9th inst. Subjects—ECLIPSES, TIDES, COMETS, and FIXED STARS

Six Solar and Lunar Eclipses will be exhibited on the Screen, among which will be shown the great Eclipse of the Sun on the 27th of May next, the most remarkable Comets and Constellations, with exhibitions of the Northern lights, as seen in Finland.

View of Jerusalem, as seen from the Valley of Kedron, The Garden of Gethsemane, The Sea of Galilee and Ruins of Tiberias, The Valley of Jordan, The Harbor and Citadel of Sidon, with numerous other views, &c.

Tickets for the Course, $1 1-2 cents—for a single Lecture, 75 cents—to be had at the Bookstores and at the Door

Parents and Guardians who take with them children under 10 years of age, can have tickets for them at the door at half price.

Lectures commence at 7½ o clock.

P. S.—To prevent delay at the door it is desired that those who take tickets there should, if possible, be prepared with the change

WILSON'S COMPOUND OF PURE COD LIVER OIL AND LIME.

THIS valuable medicine, which has received the sanction of the medical faculty, by whom it is regularly prescribed, and which has been tested so successfully by thousands of invalids, is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITES, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, yet discovered, while the chemical properties of the PHOSPHATE OF LIME are also well known in medicine as being peculiarly healing. In cases where ulceration has taken place on the lungs, this article has been found, by the most careful tests, to supply the very ingredients necessary for the formation of cells, and the complete healing of that delicate part of the human system

This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste, which renders it so repulsive, particularly to invalids. The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry, and a medicine has thereby been produced which is of inestimable value in a climate like our own

A long array of certificates might be given here to prove the efficacious character of this medicine, but it is not deemed necessary. The fact that upon the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical [illegible] is sufficient *proof* of its unquestioned excellence.

NEW YORK CRYSTAL PALACE!

EXHIBITION OF 1854.

NOTICE is hereby given, that the Crystal Palace remains open, and that the exhibition of 1854 will be as attractive and brilliant as that of the past year.

In the several departments of

ART,

SCULPTURE,

MACHINERY,

MINERALOGICAL CABINET,

RAW PRODUCE, and

MANUFACTURED ARTICLES,

The attractions of the exhibition are such as to be worthy of the most close examination.

IN SCULPTURE,

The Colossal Equestrian Statue of Washington, by Marochetti; the Amazon, by Kiss; our Saviour and his Apostles, by Thorwaldsen; and upwards of three hundred original works in marble and bronze by the first artists of this country and Europe.

IN PAINTING.

The Gallery contains over six hundred paintings by the principal artists of both hemispheres. It is by far the most extensive ever opened to the American public.

THE MINERALOGICAL CABINET,

Organized by Professor Silliman, and collected from every part of the United States and Europe, exhibits the vast mineral resources of the world, and is one of the finest in the country.

THE MACHINE ARCADE

Contains upwards of three hundred machines in motion, many of which are among the most wonderful specimens of human ingenuity

The Agricultural Department,

Organized by Col. B. P. Johnson, contains hundreds of specimens of the most curious and valuable implements used in this peculiarly American branch of industry.

The Government of the United States

Has contributed instruments from the Coast Survey Office, and the arms of the Union.

Through the kindness of

FOREIGN GOVERNMENTS,

The choicest productions of the Royal Factories of Europe are here exhibited.

Porcelain from Sevres and Dresden. Ancient Arms and Armor from the Tower of London, of the highest interest. Models from the Workshops of the Louvre, together with countless objects from

TURKEY,

JAPAN,

SYRIA and

THE HOLY LAND,

EGYPT,

The DIFFERENT COUNTRIES of EUROPE, NORTH and SOUTH AMERICA.

All these are contained in a building of unequalled beauty, and of dimensions far exceeding any other in the United States.

Circulars, with further particulars will be furnished on application at the Secretary of the Association, Crystal Palace, New York.

Feb 22 1m

Dissolution of Copartnership.

NOTICE is hereby given that the partnership heretofore existing between Matthew S. Randall and Benjamin H. Parker, is dissolved by mutual consent.

WE have opened a beautiful establishment for the sale of

Fruit, Confectionery & Pastry,

and have several apartments and well finished rooms fitted up with Marble Tables, for the purpose of furnishing to gentlemen, and ladies and gentlemen, a quick repast in the shape of a Luncheon, or a short and comfortable Meal, at any hour of the day, at a moment's notice.

☞ The entrance to the Ladies' Saloon is by the carriage entrance to the Mercantile Association Reading Room. ☞

This is a fast age, and gentlemen visiting the city with their wives do not like a long, tedious waiting for a set and formal dinner, under the ponderous machinery of a hotel, and our plan is to give them an elegant meal in our Saloon, without the loss of time, and at about half the hotel price. A gentleman in a hurry, a gentleman belated or obstructed by a stormy day, can positively get a nice meal without trouble, and with little loss of time.

☞ We have made the beginning in one of the most convenient and popular arrangements extant in the trade, and we intend to keep up its respect all fair and reasonable

OYSTERS served in all the various styles.

New Brig for Sale.

Now on the stocks, of 210 tons custom, 105 feet in deck, about 19 feet hold, 26 feet beam—well calculated for the Southern lumber business—built of part White Oak and Hard Pine, the frame put up in August. She is well seasoned, and her work will compare with that of any one built on the river the past year—she will be ready for sea as soon as the ice is out of the river.

Any persons desirous of purchasing a vessel of this class are requested to call and examine, and judge of her excellence for themselves.

D. D. OAKES.

Brewer, Jan 24, 1854 tf

FOR SALE: Back Bold Hunter.

THIS Clipper ship was built in Bangor—is four years old and is now discharging at Norfolk from her second voyage from California.

She was built under the eye of her present owner, and no pains or expense, either in materials or workmanship, were spared in her construction.

Her dimensions are 101 feet on deck, 25 feet beam, 11 feet hold, and measures 224 tons. She is copper fastened and coppered to the bends, to the spring of bilge. She is a second sailer, having made her first passage home from California in 102 days.

Those wishing to purchase a vessel of her class will find it for their interest to examine her where she now lies.

Green Mountain Vegetable CEMENT.

BROKEN China, Glass, Earthen Ware, and Fancy Articles of every description repaired and mended as tight as strong as before broken, without injuring its appearance.

This Cement which has been proved to be of great strength, will be found particularly useful in every family; the simple manner of its application is its main recommendation. The adhesive property which it possesses is so great that many things will rather break in a fresh place than where they have been mended with it. The variety of purposes for which it has been so successfully used, that it would be difficult to enumerate them. Its success in mending Glass, China, &c., is entirely owing to its very degree of heat affecting it, and as the joints are scarcely perceptible, articles of this kind may be made useful for years, which otherwise would have been cast away.

Feb 7, 1854

THE GREATEST MEDICAL DISCOVERY OF THE AGE!

MR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple. He has tried it in over six hundred cases, and never failed except in two cases, (both chronic humors.) He has now in his possession over one hundred certificates of cures, all within the limits of Boston.

Half bottles are warranted to cure a raging sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of boils.

Four bottles are warranted to cure the worst case of tetter on the mouth and etc. each.

Five or five bottles are warranted to cure a bad case of scrofula.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and ruining ulcers.

One bottle will cure any eruptions of the skin.

Two or three bottles warranted to cure the worst case of ringworm.

Two or three bottles are warranted to cure the most desperate cases of rheumatism.

Three or four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the very worst cases of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pastures, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a tumor it has to cut. The cure will not end, humor nor he's abused it, saying some cures, but not yours. I paid ad over a thousand testimonials in the city of Boston. I know it is a secret of its every name. It has already done more of the greatest cures ever done in Boston with it. I gave it to children, to old people, to old people of every. I have seen poor pony, weary looking children, whose flesh was soft and flabby, restored to a perfect state of healthy new health.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in tetter and diseased. Some who have taken it have been costive for years, and have been regulated by it. Where the body is opened it works quite easy, but where there is any derangement of the functions of nature, it relieves very single at feelings, but you may not be alarmed—they will always disappear in from four days to a week. There is never a bad result from the use of it, any, when that feeling is gone you will feel as if you have a new person. I heard some of the most extraordinary encomiums of it that ever were listened to.

PATENTS.

Claims and all Foreign Office

AGENCY FOR BUSINESS WITH THE U. S. PATENT OFFICE, WASHINGTON.

No. 76 State Street, opposite Kilby St., BOSTON.

BEFORE INFORMATION TO INVENTORS—Have submitted (late Examiner of the U. S. Patent Office, under the Act of 1837) determined to prosecute advantageous to apply for patents, experience has shown, offered inventors by others, has made it indispensable where my application is prepared and conducted by me. THIRTY DOLLARS (instead of twenty, as paid back by others) will be required by him in case of failure to obtain a patent, and all withdrawal drawings taken within thirty days after the rejection. Caveats, Specifications, Assignments, and all necessary papers and drawings, for procuring patents in this and foreign countries prepared, and advice rendered on legal and scientific matters respecting inventions, and infringement of patents.

Inventors can not only have obtained their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington.

R. H. EDDY,
Solicitor of Patents.

"During the time I occupied the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, practised before the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the most informed and most skilful Patent Solicitors in the United States, and have no hesitation in advising inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications into form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents

"PATENT OFFICE,

"R. H. Eddy, Esq., Boston, Mass.

SIR—Your last letter for the prosecution of my business connected with this office, is equal to those of any other agent. I am very respectfully, yours, &c.,

THOMAS EWBANK,
Commissioner of Patents

NUMBER ALTERED.

NEW ENGLAND TRUSS MANUFACTORY.

JAMES FREDERICK FOSTER,
MANUFACTURER OF
Ratchet and Spiral Trusses,
533 (formerly 535) Washington Street, 533.
BOSTON MASS.

ALL the various approved TRUSSES constantly on hand.

☞ Ladies wanted upon the Miss Caroline D. Foster, who has had the very years' experience in the business.

He will keep a full supply of ready-made Trusses for Gentlemen and Ladies, Youths and Infants—Abdominal Supporters of five or six different kinds, such as Hulls, Chapman's Spiral, Cotton's, Finch's, Ingalls', &c., &c.

TESTIMONIALS.

The following certificate from Dr John C. Warren, of Boston, was given 7 years since, but will not force ever.

Boston, Jan. 5, 1850.

Having had occasion to observe that some persons afflicted with hernia, have suffered much from the want of a skilful workman to accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J. F. Foster to supply this deficiency mentioned by the direct of Mr Bond.—After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments, and ingenious in accommodating in the variety of cases which occur. I feel called upon to recommend him to my brethren of the profession, and to the public generally as well qualified to supply their wants in regard to these important articles.

JOHN C. WARREN, M. D.

The undersigned bid great pleasure in recommending to the favorable consideration of those who are unhappily afflicted with Hernia, Mr James Frederick Foster, as a skilful and competent person in the manufacture and fitting of Trusses. We have employed him (some of our own relatives have) and therefore speak from personal knowledge of his ability as. His early apprenticeship, long experience in the business, and the large number of individuals to whom he has adjusted with a variety of cases, render him, in our opinion, equal, if not superior, to any mechanic upon the article. His father Ben Gideon Foster, of Charlestown, was master of the Foot-Stocks in that town for upwards of twenty four years, during which period Mr Foster availed himself of that opportunity, and made application of Trusses to a great variety of cases, with great success, some of which were of a very complicated and distressing character.

It is well known to all who have occasion to wear a Truss, that its greatest excellence consists in its adaption to the body, at the same time relieving the person. Any ordinary mechanic may make a Truss, but it is only a skilful practitioner can apply it in such a manner as effectually, and oftentimes radically cure the complaint.

Our experience has convinced us that Mr. Foster has those qualifications which the certificates of Dr. J. C. Warren, and other eminent surgeons, which he has shown to us, fully sustain, in the opinion we have expressed.

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr CURTIS, for the cure of Asthma, Consumption, Bronchitis, Coughs, Colds, and all Lung Complaints, by Medicated Inhalation. Dr CURTIS'S HYGEANA, or INHALING HYGEAN VAPOR and CHERRY SYRUP, has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man. It is producing an impression on the senses of the Lungs never before witnessed by the medical profession. [See certificates in hands of Agents.]

The Inhaler is worn on the breast, under the linen, without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor, passing into all the air-cells and passages of the lungs that cannot possibly be reached by any other medicine. Here is a case of

ASTHMA CURED.

Brooklyn, N. Y., Dec. 20, 1853.

For about eight years I have been severely afflicted with the Asthma. For the last two years I have suffered beyond all my powers of description. I could at times have not been able to sleep in a bed, getting what rest I could, sitting in my chair. My difficulty of breathing, and my sufferings, were so great at times, that for hours together my friends expected each hour would be my last. During the past six years I have had the aid and attendance of some of the most celebrated physicians, but have received no permanent benefit, and but little relief. I at length had the good fortune to procure Dr Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup. At the time I first obtained it I was suffering under one of my most violent attacks and was in great distress, it was so suffocating to want of breath. In less than ten minutes from the time I applied the Inhaler to my stomach and took a teaspoonful of the Cherry Syrup, I was relieved in a great measure from the difficulty of breathing, and had a good night. I have since continued it with the greatest possible benefit, and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from. My advice to the suffering is—try it!

MARGARET EASTON,

CONSUMPTION CURED.

New York, Dec. 7th, 1853.

I came to New York the last ship "Telegraph" sailing place to St John, New Brunswick, when I reached this city my health was very poor had a bad cough, raised a good deal of matter, which was frequently mixed with blood; had pain in my left side, and was very weak and emaciated. My friends and physician pronounced my case Consumption, and beyond the reach of medicine. I accidentally heard of Dr Curtis's Hygeana, or Inhaling Hygean Vapor and Cherry Syrup, and obtained a package, which I gently believe was the means of saving my life. Soon after wearing the Inhaler I found it relieved the pressure on my lungs, and after a while the disease made its appearance upon the surface under the Inhaler. I took the Cherry Syrup as directed, and continued to do so long enough gradually growing better, until at its first left me, and I now consider myself cured. I still wear the Inhaler, as the use of it is rather pleasant, and believing it strengthening and purifying to the lungs, I feel unwilling at present to dispense with it.

AYER'S CHERRY PECTORAL,

For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, and CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—measures to enjoy best, and even prolong the term of human existence, none can be named of more real value to mankind than this contribution of Chemistry to the Healing Art. A great part of the sickness throughout this vast country, has proved beyond a doubt, that no medicine or combination of medicines yet known, can be surely counted on for curing a pulmonary disease which has baffled every skill, and cut down thousands and thousands every year. Indeed, there is now good reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. But space here will not permit us to publish any proportion of the certificates of bystanders, but we would present the following—and refer further enquiry to our American Almanac, which the agents below named will always be pleased to furnish free, wherein are full particulars and indisputable proof of these statements.

Office of Transportation, Lawrence R. R. C.
Aug 4, 1853

DR AYER, Dear Sir—My little son Benjamin, two years old, has just then cured from a severe attack of Malignant Scarlet Fever, but three weeks ago, and every person that visited him pronounced him a dead child. Having used your Cherry Pectoral in California, in the winter of 1850, for a severe attack of Bronchitis, with entire success, I was induced to try it on my little boy. I gave him a teaspoonful every three hours, commencing in the morning, and by the evening at night I found a decided change for the better, and after three days use he was able to eat or drink without pain.

He was in the above named disease will save many a child from a premature grave, and relieved the anxiety of many a fond parent. For all affections of the Throat and Lungs I believe it the best med cine extant. A feeling of the deepest gratitude prompts me to add my testimony to the above, for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,
J. Q. POWELL, Supt Trans. L. R. R.

Rock Hill, (Sodonset Co.) N. J., July 21, 1843.

Dr. J. C. Ayer:—Since your medicine has become known here, it has a greater demand than any other proprietary medicine we have ever sold. It is spoken of in terms of unquestioned praise by those who have used it, and I know of some cases where the best they can say of it is that it is so much for the good it has done. I take pleasure in selling it, because I know that I am giving my customers the worth of their money, and I feel gratified in seeing the benefit it can confer.

Please send me a further supply, and believe me
Yours, with respect, JOHN C. WHITLOCK.

P. S. About any number of certificates can be sent you, if you wish it.

Prepared by J. C. AYER, Chemist, Lowell Mass.

Sold in Bangor by G. W. Emerson, G. E. Sargent, Guild & Harlow, S. E. Perkins, W. L. Alden, Thos. G. Brown and by all other druggists.

DR. MORSE'S Invigorating Cordial,

A Phenomenon in Medicine.

Health Restored & Life Lightened by Dr. Morse's Invigorating Elixer, or Cordial.

For centuries, Medical science has been ransacking the vegetable and mineral kingdoms, in search of something that should restore the lost or decayed energies of the nervous and muscular systems, without the dangerous effects of subsequent prostration, which all stimulants, tonics and narcotics had heretofore contained—That something has been found. It is a vegetable production brought from that mystic deserts of Arabia the Stony, by the celebrated Professor M. Morse, well known as a distinguished member of the medical scientific society of the Old world, and equally distinguished as a physician, chemist and travelier. The juices of this herb, concentrated and combined with other vegetable medicinal extracts, are now producing results heretofore unheard of in this or any other country. At first it was given, situated in Prof. MORSE'S INVIGORATING ELIXER OR CORDIAL were deemed fabulous. The public then deserved could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts, attested by well-known of the highest class and station, are now gaining ground all doubts. Intending as overthrown by a mass of testimony which is perfectly irresistible.

The ELIXER remedies in all cases, the deplorable evils arising from a debased or abuse of the various organs which make up the wonderful machine called man. It restores pulse vigor, every delicate function comes out with first mysterious component agency of nature and salad, new vary to the *regeneration of human life*. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of restoration, that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher intellectual attributes. Its beneficial effects are not confined to either sex or any age. The feeble girl, the ailing wife, the listless, enervated youth, the over worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief, from the free of the incomparable cordial. To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard, as it has that specific quality. There are many persons, who have so often trifled with their constitutions that they think themselves beyond the reach of medicines. Let such at least despair. The Elixir is a double with disease as a cause without reference to causes, and will restore the disorder itself.

REBUILD THE BROKEN CONSTITUTION

The derangements of the system resulting to nervous diseases, are the *forms of nervous disease itself*, are so numerous that it would require a volume to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz. neuralgia, headaches, pain in the head, spinal affections, muscular debility, tremors, flutterings, a racking sensation in the limbs, nervous weakness, lassitude, loss of appetite, weakness of the will, indisposition to move, faintness after exertion, broken sleep and terrifying dreams, hesitancy in rising in one place or position, weakness of the gastro-intestine organs, actual incapacity, mental gloom, melancholy, nervous fears, sinking at the stomach, female irregularities, a chronic tendency to miscarriage, constipation and all complaints proceeding out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

When the organs to be acted upon are free from malformation or structural diseases it is averred that

MORSE'S INVIGORATING ELIXER

Will produce weakness with strength, incapacity with efficiency, irregularity with order and natural action and the result only without instances of reaction, but with a happy reaction into general organization. Bear in mind that it stimulates, wherever they be in the nervous system, and that the paralization of the drives of action and sensation in physical death. Bear in mind, that for every kind of nervous disease the Elixer Cordial is the only reliable preparation known.

CURE OF NERVOUS DISEASES

No language can convey an adequate idea of the marvellous and almost miraculous change which it occasions in the diseased, debilitated and shattered nervous system, regular broken down by excess, weakness, nature, or simply by age and, the nervous and relaxed organism is instantaneously invigorated and built up. The mental and physical symptoms of nervous disease vanish like fog under the influence. Nor is the effect temporary, on the contrary, the relief is permanent, for the cordial imparts to the decayed stomach the vegetation itself and restore it to its natural condition.

LOSS OF MEMORY,

Confusion, distinct rush of blood to the head, melancholy, nervous debility, hysteria, wretchedness, thoughts of self destruction, fear of insanity, hypochondriasis, dyspepsia, general prostration, fitful, irritability, nervousness, starting in sleep, diseases incident to females, derangement of the sexual functions, hysteria, nonsensing, vapor, palpitation of the heart, impotency, constipation, etc. etc. from whatever cause arising, if there is any relief to be placed on human testimony, absolutely useful.

A GREAT MEDICINE FOR FEMALES.

The unprecedented effects of this great restorative in all complaints incident to females, mark a new era in the annals of medicine. Thousands of stimulants have been tried—thousands of inebriants consumed—and patients have been sacrificed to the vague diagnosis and delusive remedies which the desire of vicarious gratification induces. The result has heretofore been just form. These nostrums have indeed imparted a temporary energy to the nervous system, a transient and false voice vigor to the muscles, but the flash of relief has been succeeded by a depression and prostration greater than before, and the end has too often been entirely to paralyze the recuperative power of the nervous and the vital organization, and finally to destroy the unhappy patient.

EVERY WOMAN OF SENSE,

who suffers from weakness, hysteria, nervousness, tremors, pain in the back or any other disorder, which or peculiar to her sex, or common in both sexes—to give the invigorating Cordial a trial.

MARRIED PERSONS,

or both, will find this Cordial effective, they have tried it or two, a thorough regeneration of
